Key knowledge for this unit

- ☛ The third Noble Truth teaches us that escape from "suffering" (dukkha) is possible by extinguishing "craving" (Tanha) from one's life.
- ☛ People may have desires such as wealth, fame and power but Buddhism teaches us that craving these things prevents us from ever being fulfilled and happy with life.
- ☛ The fourth Noble Truth is known as the "Eightfold Path" and by following this, individuals may achieve enlightenment.
- ☛ To follow the "Eightfold Path", an individual must adopt eight principles, three of which are Right Speech, Right Action and Right Livelihood.
- ☛ Right Speech means not lying, not using insulting or offending words and speaking with politeness. Story link: "The Buddha and the Angry Man".
- ☛ Right Action means not causing pain or injury and being patient. Story link: "Siddhartha and the Wounded Swan".
- ☛ Right Livelihood means work that doesn't cause suffering to others and doesn't require a person to be dishonest.
- ☛ Whether wealth, fame, power, celebrity, and possessions are necessary or a hindrance to living a fulfilled and happy life.
